

JUST FOR 2!

Pets

We regret we do not accept pets

We very much regret that we do not accept pets under any circumstances.

We are often asked why and whilst we are pet lovers, we feel that bringing your pets to this area is a risk which we are not prepared to accept. Set out below are a few reasons why:-

Whilst we have a large garden we are not keen on dogs roaming freely, creating a mess which may affect subsequent visitors.

We have had instances where guests allowed the dog to swim in the pool. Not only is this unhygienic, but it could cause several thousands of pounds damage to the pool liner.

During the summer months temperatures can reach very high levels affecting the health of animals not used to living in this climate.

Some guests can also have allergies caused by animals and we are very conscious to ensure that even our own animals are not allowed to enter the gite. No matter how much cleaning is done, some residual traces could affect the enjoyment of others.

Many local shops, amenities and places of interest will restrict or refuse the admittance for dogs.

This area is well known for the liver fluke which can attack untreated dogs and sometimes even 'treated' dogs.

If the disease is not recognised within the first 24 hours, then the animal may not respond to any treatment. Naturally we do not want your holiday spoilt or you spending time at the local vets.

Unfortunately, in the 12 years we have lived here, we have seen a number of cases of locally treated dogs where the disease has struck with tragic results.

Finally, we have a number of cats who do not appreciate dogs in *their garden!* We often have to spend considerable time rescuing them from inaccessible places.

We do hope you will understand our decision.
